

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable. Por favor hable con alguien que lo pueda traducir.

Daim ntawv qhia no tseem ceeb heev txog koj cov dej haus. Thov nrog ib tug neeg uas yuav txhais tau nws.

### Nitrate Monitoring Requirements Not Met for FCWWD #18/MIRA BELLA 2023

Our water system failed to monitor as required for a drinking water monitoring standard during the 2023 Calendar Year and, therefore, was in violation of the monitoring regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the 2023 Calendar Year we did not test for nitrate and therefore cannot be sure of the quality of our drinking water during that time.

#### What should I do?

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during the last year, how many samples we are required to take and how often, how many samples we many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	When samples will be taken
Nitrate	1/Year Well NO.3 RAW	0	2023 Calendar Year	TBD - If or when Well No. 3 is repaired
Nitrate	1/Year Well NO.7 RAW	0	2023 Calendar Year	TBD - If or when Well No. 7 is repaired

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

Annual Nitrate Sampling for Wells #3 and #7 were not performed in the year 2023. This was due to Well # 7 going out of service in October 2022 and Well # 3 going out of service in April 2023.

What happened? What is being done?

Description of corrective action: If or when Wells #3 or #7 are repaired and brought back online, the annual Nitrate sampling will be performed at that time.

We anticipate resolving the problem within the estimated time frame: To be determined (TBD)

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.*

### **Secondary Notification Requirements**

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- SCHOOLS: Must notify school employees, students, and parents (if the students are minors).
- RESIDENTIAL RENTAL PROPERTY MANAGERS OR MANAGERS (including nursing homes and care facilities): Must notify tenants.
- BUSINESS PROPERTY MANAGERS, MANAGERS, OR OPERATORS: Must notify employees of businesses located on the property.

This notice is being sent to you by FCWWD #18/MIRA BELLA in compliance with the California Domestic Water Quality and Monitoring Regulations as a means of keeping the public informed.
